How do I link to a website?

Last Modified on 01/23/2020 1:48 pm EST
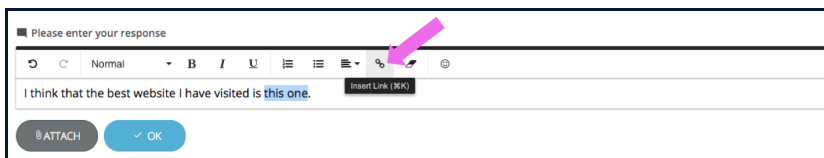

Begin by typing in your response to the task.

You're well on your way! Click **Next** for the next step.

Highlight the portion of the text that you would like to turn into a hyperlink, then click the chain icon in the toolbar above the text.

Type in the URL you are wanting to link. If desired, check the "Open in new tab" box. When you have finished, click the insert button.
