

Using QualTranslate

Last Modified on 07/05/2024 3:39 pm EDT

1 of 5

When you are viewing the responses, if your profile language is set to the language you translated to then that language will appear. If you want to view the original language, click the translator button at the top right of the screen.

2 of 5

If you want to re-translate a post or edit a translation, click the button on the top right of a participant's response.

3 of 5

Here you can view the Original Text and and Translated Text. If you need to edit the translation, click "Edit."

Once you have edited the translation, click "Save."

4 of 5

If the original post was updated or a translation failed for some reason, you can click "Re-translate" to run it through machine translation again.
