

Creating a Highlight Reel

Last Modified on 05/15/2026 1:07 pm EDT

1 of 23

From the Project Dashboard, click **Highlight Reels** under the Media tab

You're well on your way! Click **Next** for the next step.

2 of 23

To create a new reel, click **Create Highlight Reel**.

3 of 23

Create a name for your Highlight Reel and select a Language. You will only be able to select videos in this language.

4 of 23

The Media tab is where you will find all media that can be added to your highlight reel. You can view all Clips, Videos, and Images that are in the project.

5 of 23

To filter through your media, click the Filters icon.

To add a slide to your highlight reel, go to the Slides tab. These can be customized. If you edit a slide to change the font size, colors, text location, etc a new slide preset will be saved in this list.

To add media or a slide to the timeline, click and drag it over.

When a slide is added to the timeline, you must select a duration for the asset.

8 of 23

9 of 23

To edit or add Text, click the **Text** tab. After adding the Duration and Text click **Add Track**.

10 of 23

Media can also be added to the timeline with the plus button icon. Clicking on it will add that piece of media to the bottom of the timeline.

You can set the duration of the media select by using the Start and End time or you can use the drag handles at the bottom of the video. Click **Add Track** when you're ready to add it to the timeline.

If you want to add a Text overlay to your media, go to the Text tab and add the text you want to see there.

To add a transition in between the media in your reel, click **Add Transition**.

Select which transition you want to use. To see a preview of the transition, hover over it. Click **Save** once you've selected the transition you want to use.

If you want to edit the duration or text on a piece of media after adding it to the timeline, click on the thumbnail of the asset.

Here you can see the total length of the reel. Reels can be 15 minutes long. If the video exceeds 15 minutes, you will not be able to Generate the reel.

If you decide you want to start over, click "Clear Timeline". If the timeline is cleared, there is no way to recover what was previously there.

Once your reel is ready, click "Generate"

You'll get confirmation that your reel has successfully begun generating. Click **OK**.

Your Highlight Reel will automatically download and be added to the Media Gallery. You can view it once it has finished generating.

Click on the download icon in the header to download your Highlight Reel.

Once your video generates, you click **View in Media Gallery** to go view your finished reel.

In the Media Gallery, click the Highlight Reel filter to view your reels.
